Building Healthy Relationships

Volume 8, Issue 2

www.autumnleafgroup.com

National Adoption Month

Our agency provides therapeutic and clinical trauma-informed services that encourage healthy relationships among children and families including adoptive and foster families. We also perform parent-child attachment evaluations used in permanency planning efforts for vulnerable children.

National Home Care & Hospice Month

Since 2007, our medical social work services have been performed as a component of a home health service delivery model where we serve as a part of an interdisciplinary team.

Our role is to provide in-home assessment and short-term case management services to our clients in order to connect them to the appropriate resources needed to alleviate barriers to their safety in their home and community.

What's New:

-Autumnleaf Group, Inc. is proud to announce the launch of our newest program, *Signature Case Management*, which provides services to the elderly and physically disabled residents in the District of Columbia who receive EPD waiver services.

-We would like to introduce Michaela De Asis, our newest graduate intern for the 2016-2017 academic year. Michaela is pursuing her Master's degree in Clinical Social Work at George Mason University. She is a bright, fast-learner.

Our Programs:
